

Global Category Manager Frontend Equipment (f/m/div)*

Job description

Do you strive for high quality, work efficiently and want to achieve the best results for the Infineon purchasing team? Then take the chance and apply as Global Category Manager Frontend Equipment (f/m/div)*. With your typical purchasing mentality, you will be the main contact person for our global key suppliers in the wafer fab equipment business, cooperate with the specialist buyers at the individual production sites and work closely with the production, planning and development experts.

In your new role you will:

- Being the responsible **Category Manager for Frontend Equipment**
- Be part of a **Strategic Buyer team** and **source global commodities**
- **Lead and implement the category strategy** including the corresponding KPIs
- **Negotiate** with suppliers **the commercial and contractual conditions** to fulfil your targets
- **Evaluate and develop suppliers** and **conduct market analysis** to fulfill Infineon's requirements including **compliance, escalation and complaints**
- **Communicate** intensively and regularly **with internal (e.g. production sites) and external interface partners** to recognize e.g. **internal demands and market developments** immediately and to act accordingly
- Actively **steer**, coordinate, belong and moderate **global, international and interdisciplinary projects**

Profile

You recognize and use potential to increase efficiency, you concentrate on the results and act cost-consciously. Even in complex situations and under pressure, you can keep an eye on the big picture. If you have excellent communication skills and know how to build and maintain sustainable relationships and networks then you should join our team!

You are best equipped for this task if you have:

- A **degree in engineering, business studies** or other related subjects with **excellent grades**
- At least **6+ years of relevant working experience in strategic / technical purchasing, ideally with a production-related product group**
- Solid experience in **commercial negotiations** and **legal contracts**
- **Strategy and market knowledge** of the **semiconductor industry**
