

## Project Manager SAP Environment (f/m/div)\*

### Job description

You are open for new adventures? Then Infineon is the place to be for you! Don't miss out on this chance to join our team in Klagenfurt. Your tasks as a Project Manager SAP Environment (f/m/div)\* includes leading a technical team within global OneSAP program, manage service providers and reporting.

Your new tasks will include:

- **Leading the technical team** within global OneSAP program
- **Manage service providers work streams** and handle escalations from projects /tracks and also between different service providers
- **Monitor delivery** of release packages according to defined milestones
- Actively **manage resource planning** for technical teams
- **Strengthen stakeholder relationship** and collaboration between all technical teams
- **Active reporting** towards leads, projects and PMO
- Foster **continuous improvement** to delivery processes and processes
- Involve in **planning** further **roll-outs**

During an **individual training phase**, we prepare you optimally for your new tasks. With **regular feedback discussions** and **planning** of your **professional and personal** development, we want to ensure your success in this job. In our international and multidisciplinary environment, you can also benefit from the extensive knowledge and expertise that characterizes Infineon employees worldwide.

Sounds like you? Then join our global SAP business transformation project.  
#oneSAPDreamJob

### Profile

Teamwork is your key to success and you bring along a communicative attitude. You are curious about new things and processes. You are a good networker, have an analytical, agile and structured working style and strong problem-solving skills. You remain aware of the big picture and tackle changes actively to reach your ambitious goals.

You are best equipped for this task if you have:

- **5 years** project management **experience** in **SAP environments**
- Ideally have worked in international SAP Roll-out projects
- Strong **technical background** in **SAP development**
