

Internship - Training Management (e-learning animation, video tutorials)

Job description

The student, as part of the Backend Academy team, will undertake tasks such as animation, intranet page/SharePoint development and interactive digital bulletin in support of backend operations' competency development and training management.

In your new role you will:

- **Collaborate with technical experts from multiple sites** (e.g. Singapore, Melaka, Germany, etc.) to design and **create 2D animation videos/e-learning for semiconductor manufacturing processes and concepts**
- **Participate in technical training e-learning development cycle** (at various modes: project, sustaining and adhoc)
- Manage the digital media platforms of the department (intranet page, SharePoint, bulletin) and increase user engagement

Internship Learning Outcomes:

- **Apply the elements of 2D modeling and storyboarding concept in technical e-learning creation**
- **Familiarity and proficiency with Infineon 2D software tools, Learning Management System and Documentation System**
- Practice time management on projects, communicating with different cultures and data analysis for process index improvement.

Profile

You are best equipped for this task if you have:

- On track to attain **Diploma in Digital Media / Digital Arts and Animation / Computer Graphics and Design**
- Animation software skills e.g. articulate, Camtasia, PowToon, etc.
- **Created at least 1 animated presentation / video**
- Incorporation of audio / music is a plus
