

Senior Manager IT - Technical Documentation Solutions (f/m/div)*

Job description

Do you describe yourself as a dynamic and technical person who can structure and solve complex tasks in a digital environment? If you have a strong IT background in Technical Documentation technologies and enjoy delivering solutions to your customers - we should get to know each other. As the team lead of IT Technical Documentation that delivers scalable and adaptive solutions, you are responsible for the architecture landscape of various platforms that generates a wide variety of documentation output formats to the organization. Does this sound like a perfect challenge for you? Then take the opportunity and send us your resume!

In your new role you will:

- **Lead the architecture and application landscape** of Technical Documentation Solutions that includes automation and integration of toolings
- **Lead an expert team** that is responsible for multiple applications in the IT Technical Documentation area including external service provider
- Act as **IT application owner** and/or **project leader**
- **Drive and transform business requirements into roadmap** by leveraging on technology trends **with an end-to-end view** including operations in mind
- Manage the expectations of the technical documentation community through **strong collaboration and prioritization of topics** in a diverse setup that brings highest value to the organization by **considering impact and total cost of ownership**
- **Actively advise and propose solutions** to stakeholders and management to **bring solutions into reality**

Profile

In order to establish a successful relationship with your internal customers, you listen actively and consider their points of view, thoughts and ideas. You are a pro-active person, who has a “hands-on” mentality in driving solutions. As a team player, you collaborate beyond borders and appreciate the contribution of others.

You are best equipped for this task if you have:

- A **degree** in **Information Technology, Computer Science, Business Informatics** or in a related field
- More than 6 years' experience in IT whereof at least **5 with focus on technical documentation methodologies** e.g
