

Staff Specialist Cost and Invest Management

Job description

Responsible for the Capital Project investment management cycle from planning, monitoring, controlling, and reporting.

In your new role you will:

- Responsible for the Capital Project investment management cycle from planning, monitoring, controlling, and reporting.
- Prepare investment overview and analysis, flag and drive for corrective actions with stakeholders to meet cost target and accuracy.
- Ensure accurate and in-time investment master data set-up and update, including SAP maintenance and adjustment.
- Manage month-end closing for investment and projects including status follow-up, accruals, and report generation.
- Facilitate Capital Project requests from preparation till workflow release.

Profile

You are best equipped for this task if you have:

- Minimum 4-6years work experience in capital projects investment management, preferable in the Semiconductor manufacturing industry.
- Minimum a bachelor degree in any Finance or Business Administration field
- Proficient at SAP Business Analyst / Assets Management / Investment Management Controlling or other equivalent experience; excellent at MS Office Excel and PowerPoint.
- Strong analytical and effective problem-solving skills.
- Ability to multi-tasking and to handle phases of high workload; including delivering high-quality analysis and report in time for management review.
- Good communication (verbal & written) and interpersonal skills to work effectively with multiple stakeholders.
