

IT Business Analyst for Document Management Solutions (f/m/div)*

Job description

It is an exciting time to join Infineon's IT Information Management Department: we are actively supporting the company's strategic initiative for Product Lifecycle Management (PLM) in the area of Document Management in PTC Windchill. We are looking for a new team member, who likes to support this change and drive Document Management in a global solution landscape, supporting more than 10.000 users across Infineon. Sounds interesting to you? Then take the opportunity and send us your resume!

In your new role you will:

- **Drive projects** to deliver **Document Management IT Solutions (DMS)** for a global user community
- **Transform business requirements into IT solutions** and **integrate them into our existing landscape** - in close collaboration with the **Business, IT, external service providers** and **Management**
- **Actively ensure processes and interfaces for Document Management** on PLM meet the business needs by having a **strong key user engagement** while having **tool expertise** for consultation and support
- Work in a team **to define, manage, test and support users of the application** and ensure that it runs in **high performance**
- **Drive application roadmap** based on the strategic IT roadmap

Profile

In order to establish a successful relationship with your internal customers, you listen actively and consider their points of view, thoughts and ideas. You are a pro-active person, who has a "hands-on" mentality in driving solutions. As a team player, you collaborate beyond borders and appreciate the contribution of others.

You are best equipped for this task if you have:

- A **degree** in **Information Technology, Computer Science, Business Informatics** or in a related field
- **At least 3 years of relevant professional experience** – preferably in the area of **Document Management Solutions** (e.g. **Product Lifecycle Management / PTC Windchill**)
- Experienced as an **IT Application Owner** including managing the **full application lifecycle** while ensuring customer focus

At a glance

Location: **Munich (Germany)**
Job ID: **331629**
Start date: **immediately**
