

Senior Project Manager R&D (f/m/div)*

Job description

You want to run projects in an international environment? From product definition to volume production, you want to drive the development of new and innovative power management solutions in areas like motor drive control, solar, telecommunications, applying professional project management methods? As Project Manager R&D you have the chance to do exactly that! You will be part of Infineon's Power & Sensor Systems division and lead product development projects with high complexity and noticeable impact to the business success of the organization. Your focus will be IC development for integrated power solutions, with strong interaction with Wide Bandgap Technology development. You will be responsible for delivery, budget and timeline and will work with diverse, cross functional and international project teams as well as with all levels of management.

In your new job you will:

- **Lead product development projects** with high complexity, risk, reach and noticeable impact
- **Actively manage your key stakeholders in an international environment**; this regularly involves negotiating as well as convincing others to accept positions or trade-offs
- **Form, guide and motivate diverse, cross functional project teams**; you create energy and commitment by explaining and providing opportunities for your team members
- **Maintain the overview and understanding of technical interdependencies in order to proactively identify the most complex problems**; you will lead others to think also beyond existing solutions to solve them
- In particular, you will **conduct a forward-looking risk management**; in close cooperation with your stakeholders you will identify possible mitigation measures and/or backup scenarios
- **Assume full responsibility for your projects** by continuously assessing progress and adjusting the project plan within the given boundary conditions to ensure that goals are met even in the face of challenges; this also involves actively identifying and managing significant changes to the existing project agreement
- **Manage and control projects at any stage of project life-cycle** in compliance with internal rules and regulations

This position is part of the Project Management Career Path. It provides an attractive career opportunity for employees who focus on managing projects and functional leadership of project team members.

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

– **Power & Sensor Systems (PSS)** drives leading-edge power management, sensing and data transfer capabilities –

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers,

adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3900 colleagues from over 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria’s southernmost province, in close proximity to the Italian and Slovenian border. Due to its particular geographic location and the outstanding natural beauty of the region, Villach and the whole province of Carinthia have for generations been popular holiday destinations for people from all over the world. Living in Austria also has many social, health-care-related and economic perks. The country’s social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
