

Senior Manager Supply Chain Planning

Job description

Are you a stellar Supply Chain Planning professional? We are looking for you! In this role, you will be responsible for Supply Chain Planning (SCP) in the Americas, managing an entire portfolio. You will also be responsible for tasks including Production Program (PP) forecasting, demand planning and supply chain operations for supply security in a 26 weeks horizon. You will also be the first level escalation interface for operational support and SCP management in San Jose, in addition to supporting the process, methodology and tool integration and general improvements including digitalization. Apply now!

In your new role you will:

- Be the **team lead and legal and functional manager** of the EPIC **Wired Connectivity Solutions (WCS) Supply Chain Planning team members** in **San Jose, Munich and Bangalore**, acting as manager, coach and trainer with the target to enable, empower and make people accountable according to IFX and PSS core values
- Be responsible for **Product Line revenue**, production demand forecast accuracy within production program horizon (26 weeks), inventory management on all disposition points through all phases of the market cycle, demand and operations planning and respective targets
- Channel all Product Management and Customer Logistics Management requirements and optimizes the needs against production capabilities in both inhouse and outsourced production facilities. Main interface for all business target fulfilment topics
- **Drive global customer order fulfilment** towards maximum revenue at lowest inventory levels for respective area
- Ensure to maintain a high customer satisfaction level in collaboration with the Customer Logistics Management organization and to meet Infineon KPI targets. Drive continuous improvement activities in demand fulfillment processes and tools
- Enable business growth by pro-actively working with and challenging Project Management team on forecast including ramp-ups and common targets (revenue, idle, stocks) within the business cycle, EPIC AMERICAS representative for all SC planning topics
- Be responsible for the successful integration of WCS Supply Chain Planning business processes and tools from legacy Cypress setup into Infineon landscapes. This comprises suitable organizational adjustments, hiring and development of respective training and change management concepts.
