

## Global FrontEnd Project Director (f/m/div)\*

### Job description

In this position you are responsible for planning, driving & controlling all major projects at our Frontend Maintenance & Equipment Engineering (FE MEE). Your focus will be on major projects, e.g. "GIRAT" and "oneMNT". The challenge will be to achieve a standardization of MNT (business) processes. The Project Director (w/m/div) - FrontEnd Maintenance & Equipment Engineering is also part of the FE MEE cluster core team (key player for maintenance & equipment strategy and method definition) and drives a best known method implementation for one FrontEnd Maintenance strategy. In this function you will functionally report to the head of FE MEE.

In your new role you will:

- **Lead and coordinate highly complex, intercultural and cross-Fab projects** to improve equipment stability within Infineon's Frontend Fabs
- Manage the **Uptime** and **M-ratio improvement**, as well as the **(business) process standardization**
- **Coordinate defined MEE BPI (Best Practice Implementation) improvement** projects and activities
- Be responsible for the **project target deviation MGMT** at all FrontEnd sites
- Ensure the **information and method sharing within the MEE core team**
- Apply **strong problem and conflict solving skills** in a productive manner and interdisciplinary team setup
- Contribute to **organizational learning** and **continuous improvements** in our processes
- **Communicate openly and proactively**, including early stage escalation

### Profile

You are a true team player, active driver and eager to get things done. This is why you remain focused on solutions, open and flexible even in demanding situations. With your expertise and skills you make sure that professionally correct decisions are taken.

You have the following mandatory experience and skills:

- At least **10 years of relevant working experience** in semiconductor industry and thereof **5 years in leading projects**
- Experience as formal **mentor or tutor**
- In-depth **project management knowledge** in terms of appropriate project initiation, planning, reporting and documentation and ideally **certified project manager (IPMA B/C)**
