

## Senior Engineer Failure Analysis (f/m/div)\*

### Job description

You want to work in a team and a global environment? You are communicative, stress-resistant and flexible? You also enjoy creative problem solving? We have the right position for you! Apply now and become part of the Failure Analysis Team at Villach!

In your new job you will:

- **Perform physical analysis** (technology development / product development / qualifications / customer returns) with Focused Ion Beam (FIB), Energy Dispersive X-Ray (EDX), Scanning Electron Microscopy (SEM), etc.
- **Automation** of failure analysis processes
- **Determine overall analysis strategy** (physical analysis steps)
- **Report and communication** of results, interface with relevant stakeholders
- **Analytical support** and consulting for product and technology development projects
- **Establish analytical capability** for new products and technologies

### Profile

You are best equipped for this task if you:

- Have successfully completed a **Master degree in the field of physics**, material sciences or similar
- Have **know-how in the field of physical methods** as FIB, SEM, EDX, etc.
- **Break new grounds** and want to automate processes
- Ideally have **interest or knowledge in semiconductor physics**
- Are **flexible** and have a **quick comprehension**
- Enjoy **creative problem solving** and **knowledge sharing** within local and global FA team
- Have **excellent English and good German** language skills
- Are willing to work in a **6/3 shift model** (morning, afternoon, night)

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group F (<https://www.feei.at/wp-content/uploads/2021/04/minimum-salaries-white-collar-workers-2021.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Frontend (FE)** cluster offers a broad range of manufacturing competence specialized in high-quality logic products. The portfolio represents Power, Bipolar, Sensor, Passive and Diode technologies as well as CMOS, RF-CMOS and embedded flash technologies. The manufacturing sites in Dresden, Kulim, Regensburg and Villach are committed to Operational Excellence with strong customer focus.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
