

Digital Experience Platform (DXP) Expert as Senior Integration Architect (f/m/div)*

Job description

Do you like to translate customer requirements into IT solutions? Are you passionate about delivering the best experience to Infineon customers? At Infineon, we are looking for a DXP Expert and Senior Integration Architect to help shape our new Digital Experience Platform. If you want to be part of our digital transformation journey, like to bring in new ideas and want to develop them in a global environment, we are looking forward to your application!

In your new role you will:

- Support the **development** of a **reference architecture** covering all integration aspects of the **Digital Experience Platform**
- **Analyze** and **challenge** business requirements with respect to **feasibility** and **optimal integration** with and within the Digital Experience Platform
- Support the development of **scalable** and **sustainable** application integration **solutions** in compliance with the reference architecture
- Be a **sparring partner** for internal and external **subject matter experts** and **implementation partners** in the area of integration architecture for the Digital Experience Platform
- Analyze current and future **application integration** needs for the Digital Experience Platform
- **Consult** and **guide** internal customers, e.g. **Sales & Marketing** or **Communications**, on application integration topics of the Digital Experience Platform as part of the **digital transformation agenda**
- **Collaborate** and **coordinate** with domain experts, web architects, data architects, infrastructure experts, system experts, and software engineers **for best-in-class solutions**
- **Define** measures and **KPIs** to assess the as-is situation and provide support to identify and enable **continuous improvements**
- Be **owner** of the **documentation repository** and governance of any changes into the existing documentation

Profile

As a true team player, you cooperate across boundaries, appreciate the contributions of other team members and respect their different attitudes and points of views. At the same time, you have a clear notion of how innovative IT solutions contribute to the commercial success of the company. In order to reach best results, you establish lasting relationships with your customers and listen actively to their thoughts and

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1.200 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
