

Senior Manager Innovation Management (f/m/div)*

Job description

As Senior Manager for Innovation Management you are responsible for the development, implementation and improvement of Innovation Management processes and methods worldwide, impacting R&D globally and partially also related departments like Marketing and Operations.

In your new role you will:

- Be **responsible for development, implementation and improvement of Innovation Management processes and methods** worldwide
- **Improve Infineon's Innovation strength on a global basis**, considering cultural topics as well
- Support **local Innovation activities**
- **Collaborate with local innovation managers / teams** to achieve global coverage & tailored approaches
- Be responsible for the **organization and conducting of events and workshops** (e. g. Infineon's Innovation week)
- **Processing and answering surveys and inquiries**
- **Expansion of the internal and external company network** in terms of innovation management
- **Work together with universities and institutes** on new innovation processes and set-ups

Profile

You concentrate your creativity and knowledge on producing results with real added value and gain new insights by questioning existing assumptions. With your open nature and your interest in getting to know new things and people, you are able to quickly establish a successful cooperation and master events and requests with ease.

You are best equipped for this task if you have:

- A degree in **Business Administration, Industrial Engineering or similar**
- A **technical background with a good management and technical skillset**
- **6 years** of professional experience in **setup and structuring of innovation programs**
- **Very good communication skills to collaborate with internal and external stakeholder**
- **Fluent English** with German skills as an added plus

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Business Excellence Department** contributes to Infineon's vision of a high performance company. This goal is supported by the systematic use of quality management principles and tools in business management, with the goal of improving performance based on the principles of customer focus, stakeholder value, and process management.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
