

Senior Analyst Business Analysis

Job description

As IT Business Analyst (f/m) you will be part of our worldwide operating team for the IT services "Environment, Safety and Health Solutions" and "Facility Management Solutions". In your new role you will act as a consultant towards business and ensure smooth running of your IT-applications. You will provide functional support as IT Application Owner for SAP and non-SAP solutions within smaller or midsize IT projects.

In your new role you will:

- Provide operational IT-support for FM and EHS solutions (SAP and non SAP)
- Act as in-house consult for your IT-applications
- Active support process and system consolidation activities
- Create solution proposals and blueprints for change requests and project requests
- Act as Project Manager for small and midsize IT projects
- Insure quality for customizing / development delivered by external service providers
- Conduct in-house customer trainings

Profile

You are best equipped for this task if you have:

- Degree in computer science or business administration
- 1 to 3 years of working experience
- experience as project leader in IT-projects
- SAP know how (preferred SAP PM or Logistics or other modules) is a plus
- basic database know how (Oracle, MS SQL Server, MySQL)
- Desired, but not mandatory, are debugging and programming skills
- The ability to remain focused on solutions, open, and flexible even when you are under pressure.
- Fluent English communication skills.
