

## Internship: Change and Configuration Management

### Job description

We are looking for students (f/m/div)\* with the willingness to work in a challenging environment within a highly motivated international team. Apply now for this internship in Linz and support our team!

In your new role you will:

- Support the **Change & Configuration Manager** in automating the various possible manual project activities
- Develop scripts / tools for **automating the identified activities**
- Maintain and **document the scripts / tools** developed
- **Guide team members** on the **usage of the tools**, when necessary

### Further Information

Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 12 months

### Profile

You successfully meet the requirements if you are a motivated and committed student from the field of **Informatics** or similar. You are best equipped for this task if you additionally:

- Enjoy working in an **international environment** with proactive and **solution-oriented attitude**
- Have the affinity to **optimize processes** and **frameworks** and automate them
- Are a **self-driven personality** that brings an **analytical mind, future-oriented way of thinking, initiative, creativity** and **persistence**
- Possess good skills in **Python, PHP, REST API** (RESTful Application Programming Interface) and have very good **programming skills** for automation of interfaces and data handling between tools
- Have in-depth understanding of **hardware & software development methodologies**
- Have strong communication skills in **English**

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

**– Automotive (ATV) shapes the future of mobility with micro-electronics enabling clean, safe and smart cars –**

Semiconductors are essential to realize key trends like eMobility, automated driving and secure, connected cars. Infineon ATV is the #1 semiconductor partner in the fast-changing automotive world, based on our system knowledge coupled with our passion for innovation and quality. We are a key driver in the ever-advancing pace of digitalization in the automotive industry.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*

**Infineon Hub - Connect. Create. Challenge.**

The iHub at TU Wien represents an inspiring tech platform, networking area and event location, connecting Infineon Austria with tech experts, science specialists and young professionals.
