

Senior Manager Procurement - CoE Design for Sourcing

Job description

Design for Sourcing as a holistic approach along the product lifecycle, it extends the scope beyond price negotiations to deliver the lowest total cost of ownership for procured goods or services. Well-structured Design for sourcing programs reduces risk of value chain disruptions and margin pressure by source-ability checks and multi-sourcing enhancements, which improves negotiation power. Key to success here is the involvement of all kind of internal stakeholders and a solid methodology. As Senior Procurement Manager Design for Sourcing, you will directly report to the Director of Design for Sourcing in the Procurement Center of Excellence and herein support an overall program to strengthen the existing activities. Target for Procurement is to utilize design-for-sourcing levers along the whole product lifecycle.

In your new role you will:

- Champion the **Procurement Engineering and Category Managers** with methodologies, such as **supplier cost modeling, feature value analysis** at the commercial & technical levers to **optimize product design / engineering choices** with focus on the supplier value chain
- **Build up a concept & negotiation savings** Design for Sourcing project pipeline and **support in the implementation** of all activities
- Support in **multi-sourcing share increase, IDEA-convention projects, concept idea gathering** via Infineon supplier weeks
- **Facilitate cross-functional Design for Sourcing Projects** together with Procurement, R&D, Product Marketing, and be responsible for **stakeholder management**
- Be an **Ambassador** for the Global Design for Sourcing program in Procurement

Profile

You are very structured and as a real team player you are able to quickly establish a successful cooperation within an international and culturally diverse environment. It is easy for you to push ideas to their full implementation and application. You like to work conscientiously on making things better, and it is easy for you to find solutions in complex environments. Moreover, you recognize opportunities and have a good sense for ideas with business added value.

You are best equipped for this task if you have:

- Bachelor's Degree / Master's Degree in Business Administration / Engineer with **a t least 8 years** of work experience in a **combination of procurement / design for sourcing** related tasks, preferably within the **Semiconductor industry**

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd (“Infineon”) can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. “Fully vaccinated” means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
