

## Senior Engineer Manufacturing Engineering and Analytics

### Job description

Global owner of manufacturing reporting solution related to Operational Production Reporting.

In your new role you will:

- Global owner of manufacturing reporting solution related to Operational Production Reporting.
- Responsible for the application solution roadmap execution in conjunction with the direction & target defined for the department.
- The main interface to key users & business communities.
- Ensure delivered solution serves agreed business objectives, use cases, and delivering business values while aligning with internal IT/FI guidelines and roadmap.
- Drive end-to-end solution delivery from use case clarifications until final solution delivery.
- Lead the team in the creation and maintenance of reporting solutions.
- Expect to have hands-on development to integrate data sources, validate report accuracy and participate in the ongoing maintenance of the respective solutions

### Profile

You are best equipped for this task if you have:

- Experience in working with business intelligent solutions (data warehousing, data marts, reporting)
- Having knowledge in Manufacturing Intelligence Solution (MI), Manufacture Execution System (MES) or manufacturing process.
- Experience (more than 5 years) in data processing using database technologies like MS-SQL, Oracle or any database platform
- Having knowledge in Production Performance Indicators.
- Experienced in processing data with any ETL tools/software or Reporting Visualization tools (for eg Tableau)
