

## Maintenance technician in semiconductor industry (f/m/div)\*

### Job description

Are you a mechatronics engineer, electronics engineer or industrial mechanic, who is looking for the new career opportunities? This job will be a perfect match for you! Join our team as a maintenance technician in Dresden and help us to expand our productive capacities.

In your new role you will be:

- Localizing the system malfunctions and troubleshooting of electrical, electronic and mechanical assemblies
- Performing preventive maintenance and servicing measures
- Repairing existing and installing new systems
- Providing the facility inspections

The continuous shift operation schedule is introduced. The work duration is 8 hours per shift / 36 per week with the rhythm 6/4. The work is proceeded in a cleanroom environment

### Profile

You are fond of working with complex equipment and understand the technical processes. You are a team player and diligent person.

You are best equipped for this task if you are:

- Skilled technician in the field of electronics, mechatronics, industrial mechanics etc
- Fond of practical work
- Ready to work in shifts and in cleanroom
- Having high work standards

Please add to your application the set of the documents: CV, covering letter, certificates and references.

#### What we offer:

- Permanent employment
- Good salary and benefits, such as holiday pay, 13th salary and bonus payment
- Regular training programs and opportunities of further education
