

Customer Logistics Management WITH GERMAN LANGUAGE (f/m/div)*

Job description

Did you know you are interacting with Infineon Technologies' products already? Our products are in your phone, your car, your computer and we help to make the world easier, safer, and greener!

Located in Infineon's Dublin Office, the successful candidate will be part of the largest customer-facing supply chain management team in Europe. The role entails being responsible for the demand fulfillment and logistics management for a specifically assigned customer portfolio, working as an integral part of the demand creation team, within the corporate supply chain organization.

Our Work Environment

- Infineon Ireland is located in the heart of Dublin's city center in a new spacious office centered on teamwork and collaboration with meeting rooms, outside space and a well-being room. Close to all public transport as well as plenty of bike parking facilities, we put into practice making life greener!
- Working as part of a fast-paced team of more than 18 different nationalities, the successful candidate will represent Infineon Technologies directly and on a daily basis to our valued customer portfolio across the globe.
- The focus for our Customer Supply Chain Management team is providing premium customer services to both internal and external partners and requires a high level of teamwork.
- Our Customer Supply Chain Management team regularly has the opportunity to travel to customer and Infineon sites.
- This is an excellent career opportunity for candidates who would like to progress their career in a dynamic Logistics & Customer Supply Chain Management environment, with opportunities for career progression in our global network.

Rewards & Benefits

- Hybrid working: 2 days remote working, 3 days in our office
- Competitive Salary
- Annual Bonus
- Pension Scheme
- Training & Development
- Educational Support: we have links to universities and training programs around Ireland

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

About the Company

Microelectronics from Infineon are the key to a better future. Infineon Technologies AG is a world leader in semiconductor solutions that make life easier, safer and greener. These tiny, barely visible electronic components have become an integral part of our daily lives. Climate change and a reduction in carbon emissions are in focus across the globe. Autonomous driving and e-mobility are just 2 areas where Infineon is driving this change. Our products help to feed green energy into power grids, tame power-hungry computers, safeguard the data flying through cyberspace and make our cars more energy-efficient.

What do our team say about working for Infineon Ireland?

“Infineon Ireland really cares about their employees, customers and business. Employees are constantly motivated to grow and everyone has the opportunity to flourish in their work and personal experience, which is a win-win for both. One of the things that I like the most is our team’s supportive and co-operative style in both work and social related aspect of the job, which I find to be the perfect work-life balance.”
