

Senior/Staff Test Engineer

Job description

As our new test engineer, you will be responsible for the Test Program Development and Maintenance of Automotive Microcontroller Product.

In your new role you will:

- Responsible for the **Test Program Development and Maintenance of Automotive Microcontroller Product**.
- Responsible to **debug and release productive Test Program** for Automotive Microcontroller Product covering both **frontend and backend test packages**.
- **Identify opportunities for the Cost and Quality Improvement** of the assigned product.
- Working together with Product Engineers to find the **best solution implementation** in the test program.
- Reporting to the Director of the Production Management for the Automotive Microcontroller.

Profile

You are best equipped for this task if you have:

- Bachelor/Master Electrical and Electronics Engineering with minimum 3-7 years of relevant experience
- Knowledge in **V93K tester platform** is an added advantage
- Knowledge in **SOC test and microcontrollers** is an added advantage
- Skilled in **Java, C++** programming skills.
- Good troubleshooting skills and self-driven characteristics.
- Be able to communicate at all levels
- Willingness to travel

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd (“Infineon”) can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. “Fully vaccinated” means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
