

## Student Job: Digital Learning Automotive (f/m/div)\*

### Job description

Are you enthusiastic about learning in the digital age? Would you like to be involved in the creation of training courses and addressing target groups in an international corporation? Then this working student activity is just right for you! Support our Automotive Academy team in Munich with tasks such as the creation of training material and e-learning materials as well as the coordination of training projects. We look forward to receiving your application!

In your new role you will:

- Support our **global training planning** and accompany **eLearning productions** for the Automotive Division
- Prepare **market and competition analyses** and **reporting presentations** with your colleagues
- Cooperate with internal experts in the **creation of e-learning courses** for **products and applications**
- Maintain and optimize the **internal training platform** and **communication channels** together with your team
- **Help analyzing training content** to optimize it for B2B customers
- Actively **cooperate with the digital marketing team** to use eLearning content for external target groups

### Profile

You are best equipped for this task if you:

- Are currently studying **B business Administration** with focus on **Marketing, Communication Sciences** or a comparable subject course of study
- Are able to **prepare topics** in a **structured and systematic way**
- Ideally have good **negotiating skills** and are **confident in dealing with different stakeholders** in the company
- Ideally already have **experience in B2B or B2C marketing communication**
- Are very good at creating **PowerPoint presentations** and have good knowledge of **Excel**
- Are fluent in written and spoken **English**, **confident command of German is a plus**

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

**– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –**

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon **ATV** is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
