

Staff Specialist Supply Chain Planning (f/m/div)*

Job description

Do you describe yourself as a highly enthused team player who can structure and solve complex tasks in a digital environment? If you additionally bring in IT and data affinity plus some years of experience in the supply chain field – we should get to know each other. The aim of our Supply Chain Management team is to deliver the required products to our customers at the right place and at the right time. This involves the management of the flow in both directions from suppliers to customers, through production and distribution. Seize the chance and become part of our Supply Chain Planning team on the leading edge of industrial technology.

In your new job you will:

- **Perform supply chain planning** for in-house front end fabs and silicon foundry production partners on business line level
- **Be responsible for supply chain planning** through all business cycles
- **Be the interface to central planning functions**
- **Consolidate for dedicated front end and silicon foundry capacity requirements** in a structured manner for the entire business line on a regular basis: planning process, alignment with peers and communication to central functions
- **Perform start & ramp; coordinate escalations** and involve higher management levels where necessary
- **Prepare and guide through regular management updates**

This position can be staffed at our sites in **Villach** or **Munich**.

Profile

You are best equipped for this task if you have:

- **A Master's Degree in Supply Chain Management** or Engineering
- **At least 3 years experience in semiconductor supply chain management/** supply chain manufacturing planning
- **Business-focus with strong coordination, planning and analytical skills**
- **Excellent communication skills**, also towards higher level management
- **The ability to act as a pro-actively team player** and likes to drive topics and projects in a very organized manner
- **Advanced Excel skills**
- **Fluent English** language skills and German skills as a plus

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

Industrial Power Control (IPC) empowers a world of unlimited energy - Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain. As the global leader in power semiconductors, Infineon IPC delivers leading products and solutions for smart and efficient energy generation, transmission and consumption. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever they need it.
