

Senior Manager Project Office Backend Board (f/m /div)*

Job description

Do you enjoy driving a diverse set of topics with high top management priority? Do you like to grow in a dynamic, challenging but also appreciative environment? As a Senior Manager in the Backend Board Project Office, you can make a difference in helping the international, cross-functional team get organized and set directions for the future of a major organization with 11 sites and more than 20.000 employees worldwide. Take the chance and become part of our team!

In your new role, you will:

- Contribute to and coordinate **strategic projects**
- Orchestrate the **strategy development and deployment processes**; drive selected strategic topics. **Define and evaluate strategic options** as recommendations for the Backend Board
- Own and execute the **overall communication strategy**, including creation of materials to communicate BE Board messages, interaction with the Communication community, crafting and aligning presentations for internal and external events, key note speeches, etc.
- Act as an **interface** between top management and other stakeholders
- Prepare and follow-up on top **management meetings**
- **Coordinate** Task Forces/Focus Teams as needed
- **Facilitate top level governance**, infrastructure and digitalization in leadership

Profile

You are able to quickly establish a successful cooperation. You feel responsible for and contributes to the department success. You know how to make use of your potential capacity and motivate yourself and others to achieve top results and performances.

You are best equipped for this task if you have:

- A degree in **Industrial Engineering, Business Administration** or similar with a strong familiarity of the semiconductor environment market
- At least **6 years** of professional experience in a relevant field, e.g. **strategy development, strategy consulting, project and program management, operation /supply chain management, engineering**, semiconductor industry
- Understanding of the **external environment**: clients, markets, competitors, business conditions

Talent Attraction Manager

- A fast learner, who enjoys getting into a **variety of topics**, including topics with high complexity and novelty
- Able to **structure complex issues** and work conceptually
- Comfortable in **discussions with upper management**
- **Strong networking skills** with analytical and pragmatic skills and strategic thinking
- **Strong time management**, ensuring results are delivered on time and in quality

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **backend segments** enable the development of comprehensive innovation across the entire value chain: starting with chip manufacturing, to wafer testing, preassembly, package development and development of new materials. The backend cluster combines the competencies for planning, productivity, innovation and quality, assembly and testing.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
