

Senior Manager

Job description

In your new role you will:

- Take over technical leadership for highly complex designs in multi-site Physical Design projects
- Translate product requirements into layout specifics using our state-of-the-art EDA tools and flows
- Work in all phases of the RTL2GDS flow
- Steer cross-functional teams to meet Power Performance Area goals on schedule
- Analyse and solve problems of high complexity using your global expert network
- Share your knowledge within the Physical Design community

Profile

We are looking for your experience and your willingness to use it to achieve cross-project success. Moreover, as a technical lead you are able to plan and track work packages, delegate tasks and manage relationships to key stakeholders.

You should have these additional qualifications:

- A degree in Electrical/Electronic Engineering, Microelectronics or a similar field
- At least 15 years of experience in Physical Design of highly complex SoCs
- A deep technical understanding in all aspects of RTL2GDS
- Proven technical leadership skills
- Sound programming skills and knowledge in scripting languages e.g Tcl, Perl or Python
- Basic experience in RTL coding and SoC architecture development
- Very good Communication skills
