

International Graduate Program - Analyst

Job description

Are you ready to start your career in a fast-moving, future-oriented environment? The International Graduate Program (IGP) at Infineon gives you full insight into how we come up with innovations. Our products enable self-driving cars, help save tons of CO₂, and allow contactless (and secure!) credit cards payments. Joining the International Graduate Program (IGP) will give you the big picture of Infineon: Over the course of 18 months, you have at least three different assignments – one of them abroad ! By working in different departments, you can get an idea of what suits you best. From the beginning, you'll have a chance to roll-up your sleeves and take on challenging tasks. Besides that, you have the opportunity to build strong global relationships across sites, functions and departments, and to meet the global IGP community face to face and at virtual conferences. And if that isn't enough, you'll have permanent employee status from the start. Upon completion of the IGP, you will join Infineon's Sales and Marketing team in Singapore where you will have the opportunity to work on challenging regional markets and with leading global customers.

- You are curious and interested in a broad range of topics.
- You don't expect things to be handed to you on a silver platter.
- You love change –which is guaranteed in the semiconductor industry !
- You are pragmatic and analytic, because we need both at Infineon.
- You love strategy and strategic analyses. Standing still is not your thing.
- You find inspiration in teamwork, collaborating with your colleagues on the big picture.

Profile

What are we looking for ?

- You are graduating or have recently graduated with a Bachelors or Masters degree in Business/ Marketing/ Electrical Engineering/ Computer science or Materials Science
- You are a talented user of visualization/AI/ML tools, Excel, Word and PowerPoint

- I am an ambitious and open-minded person who loves to get to know new people and learn about new topics
- When I think about moving to another country for at least three months, I want to start packing my bags
- I like to work in teams that are very diverse and in which everyone speaks English
- I can't wait to present a concept to team and managers – and I don't mind doing it in English.
- My friends describe me as “technology-savvy” and I love exploring new areas such as AI, robotics, Quantum Computing etc

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd (“Infineon”) can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. “Fully vaccinated” means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
