

Project Manager

Job description

Fully responsible for all operational decisions in the project and for the successful achievement of all project targets (time, quality, cost and budget).

In your new role you will:

- Be the key communication interface (for project related matters), representing Back End to other Infineon Divisions (e.g. Business lines, Central Functions e.g. Finance, PTI, FE Fabs, etc) .
- Form and lead the project team and assigns responsibilities within project to Project Managers of sub-projects and Project Members
- Use Infineon project management tools to structure projects, control progress and for reporting and documentation
- Drive problem solving activities within the project using standard Ifx trouble shooting methodologies, eg 8D, 5 Whys, etc.
- Continuously focus on project quality, assesses progress and ensures that goals are met even in the face of challenges.
- Monitor changes against original project goals and seeks advice/approval for adapting plans

Profile

You are best equipped for this task if you have:

- Masters / Bachelor's Degree in Engineering (Semiconductor Technology, Microelectronics, Automation, Mechanical, Electrical, Physics, etc)
- Project Management Professional Certification
- At least 5 years of relevant working experience
- Project management knowledge in terms of project initiation, planning and closing including reporting and documentation
- Knowledge in semiconductor engineering and operation.
- Good aptitude for collaboration, people management, negotiation and solution finding.

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

Infineon Technologies (Malaysia) Sdn Bhd, with its 8.000 employees, is the largest manufacturing site of Infineon. The company has established itself as a leading manufacturing site for Power Semiconductors, Logic Semiconductors, Discrete and Sensor Products. We are committed to increasing productivity, on-time delivery and providing customized solutions while maintaining the highest level of product quality. The success of Infineon Melaka is evidenced by eleven National Awards received from the Prime Minister's Office as well as 15 corporate awards.
