

Staff Specialist Procurement

Job description

In your new role you will:

- Roll-out yearly goals and estimate market price development to inform local PUR and CoC Management about main areas of activities and to supply basic data for plant planning and reporting.
- Execution of procurement strategies to ensure the long-term, cost-effective supply of products/services.
- Find alternative procurement sources to minimize stock times, inventory levels and costs.
- Support Commodity Manager to set up a strategy for an accounted commodity.
- Contacts with interface partners to recognize developments (in market, demand, etc.) and exert influence accordingly.
- Reporting of results monthly/quarterly to control the measurable activities against the planned figures.
- Monitoring of the local market to bring new suppliers, product derivatives and product innovations into the purchasing portfolio.
- Monitoring of contractual agreements to prepare renegotiations/subsequent negotiations, initiate appropriate measures and guarantee supplies.
- Supplier Management to gain the best suppliers and guarantee an optimum supply chain (incl. minimizing of purchasing risks).
- Interdisciplinary working group/project work
- To inform oneself, exert influence accordingly and optimize internal processes and procedures.

Profile

You are best equipped for this task if you have:

- A degree in Business Administration, Economics, Engineering or similar
- At least 5+ years of experience in strategic procurement or in partner function to procurement
- Advanced knowledge in sourcing, request for quote, negotiation, supplier selection, supplier management and contract management is required
- Experience in multi-commodities handling eg infrastructure, equipment, process materials is a plus
- High level of inter-personal skill for internal and external communication
- Extent of technical knowledge in other areas:
