

Principal Engineer Metrology (f/m/div)*

Job description

Are you a curious and innovative person who is keen on solving problems and drive technical decisions? Do you have a collaborative mindset and a passion for international teams? Use your chance and join the team at Infineon Villach to develop your career!

In your new role you will:

- actively contribute to the **process development** in close collaboration with technology development and production
- collaboratively create and support **innovative ideas** in your field of expertise
- **develop** and **implement strategies** within your of expertise
- **drive technical decisions** for your functional area and execute the implementation
- demonstrate **active knowledge transfer** and best practice sharing across organizational and regional boundaries
- support **problem solving**, generate **analysis** and **hypothesis**, **draw conclusions** out of those analysis and **derive the lessons learned**

With this position you will have the opportunity to enter our „**Technical Ladder**“: our career path for experts. You will be able to focus deeply on technology – while further pursuing your career. As you continually expand your expert knowledge, puzzle over matters and solve problems, you will position yourself as a thought leader – thus helping our products improve our world a bit more each day.

Profile

You are best equipped for this task if you have:

- a **university degree** (master or PhD) in **Physics, Material Science**, or equivalent
- 5+ years of **experience** in the field of **film characterization, scatterometry** or **lithography metrology**.
- several years of **experience** in **semiconductor manufacturing processes**
- strong **problem solving skills** and prefer working in an international team
- experience with **FMEA, 6-sigma** or **8D methods**
- fluent **English** skills and basic **German** skills

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group I (<https://www.feei.at/leistungen/informations-service>)

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Frontend** (FE) cluster offers a broad range of manufacturing competence specialized in high-quality logic products. The portfolio represents Power, Bipolar, Sensor, Passive and Diode technologies as well as CMOS, RF-CMOS and embedded flash technologies. The manufacturing sites in Dresden, Kulim, Regensburg and Villach are committed to Operational Excellence with strong customer focus.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
