

Manager Business Analytics and Planning (f/m/div)*

Job description

You are looking for a job that offers a variety of tasks, many different interfaces and project-related responsibility? You like to handle and structure big data and you enjoy thinking outside the box, develop scenario models and actively support portfolio management? As Manager Business Analytics and Planning (f/m/div)* you will be part of the Financial Controlling Team of our Industrial Power Control Division. There you will be exposed to interesting questions around corporate and divisional financials, analytics, long-term strategic and financial planning, M&A or innovative business models. You keep track of the development of all long-term financial planning processes of IPC and furnish the division management with all the financial data required for executive decision-making in order to take Infineon one step further.

In your new role you will:

- **Take responsibility and ownership of all IPC long-term financial planning processes**
- **Develop and improve planning methodology, tools, processes and modelling approaches**
- **Be the Divisional Competence Center for data-based** business analytics, tools, KPI systematic, target setting and tracking
- **Develop business-relevant decision support out of existing financial or operational data sources**
- **Contribute to corporate/Divisional M&A or strategic projects**, esp. regarding business planning competence
- **Take responsibility as financial owner** of the portfolio management process and methodology

Profile

You work conscientiously on making things better, faster and more efficient and keep up high quality standards. At the same time, you cooperate across boundaries appreciate the contributions of other people. To keep a cool head even if there are multiple different projects on your desks, you are used to structure work packages, think in different scenarios and prioritize accordingly. Last but not least you challenge the status-quo and possess the ability to identify and evaluate improvement potentials.

You are best equipped for this task if you have:

- **A University degree in Accounting, Business Administration, Controlling, Economics** or equivalent
- **At least 5 years of relevant experience with focus on quantitative work/analysis**, in Finance, Controlling, Consulting, Strategy, Business Intelligence or similar;

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

– Industrial Power Control (IPC) empowers a world of unlimited green energy –

Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain.

As the global leader in power semiconductors, Infineon **IPC** delivers pioneering products, solutions and services for smart and efficient energy generation, transmission, storage, and use. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever it is needed.
