

Student Job: Enterprise Architecture (f/m/div)*

Job description

Our architecture team supports our internal customers in all areas of supply chain, finance and procurement. Their task is to support and drive the development of a proper Architecture. In this student job you will support our Enterprise Architecture team during their daily work to transform requirements into solutions. Sounds interesting? Then apply now!

In your new role you will:

- Foster and take care of our **Enterprise Architecture Management (EAM) tool**
- Support in creation of **Target Application Architecture**
- Maintain the **documentation** (e.g. iShare and Confluence pages) **based on architecture requirements**
- Assist in preparation of **presentations and diagrams** (e.g. Sequence diagrams)
- Elaborate on the usage of **EAM tools** (e.g. Enterprise Architect)

Profile

You are best equipped for this task if you:

- Are currently enrolled in **computer science, business informatics** or a **related field of study**
- Show a **systematic and accurate working mode**
- Are able to **grasp new topics quickly** and **translate them into results**
- Speak **English fluent, German** is a big advantage

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript
- High school report

Additionally, the following requisites apply for student jobs:

- **You have to be enrolled in either your Bachelor or your Master studies** to be eligible for a student job.

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The Information Technology department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1200 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
