

## Senior Technical Buyer (f/m/div)\*

### Job description

Are you a strong analytical thinker with attention to details? Do you have an open mind and excellent planning and organizational skills? Are you familiar with ambitious target setting and handling of corresponding risks? If you are looking for a new career opportunity, which offers you particular challenges with high responsibility this is your chance: Join our team in Cegléd as a Senior Technical Buyer!

As a Senior Technical Buyer, you will become part of a successful team. An interesting multinational working environment is waiting for you with interfaces to other teams in Cegléd and other Infineon locations, as well as external suppliers.

In your new role you will:

- Initiate measures for **materials price reduction** and ensure **material standardization**.
- Identify and generate **ideas for raw materials cost reduction** (by utilization and further development of technical levers, such as Cost Performance Matrix, Value Engineering, or Design to Cost).
- Analyze **global procurement markets**.
- Proactively support the **technical development of the supplier portfolio**.
- **Support development projects** within the procurement area.
- Provide **technical support to commodity buyers**.
- Create **cost break down analysis**.
- **Develop searches** concerning **alternative suppliers** and **analyze the suppliers cost structure**.
- **Ensure continuous improvement** through interdisciplinary and cross-location cooperation (within the areas of R&D, marketing, logistics and quality management).

### Profile

In addition to your outstanding technical expertise, you bring along an equally strong commercial understanding. You are an intercultural savvy and you enjoy working in a cross-functional, global network of experts. Moreover, you communicate easily and clearly and are used to carry out regular supplier visits independently.

You are best equipped for this task if you have:

- **University degree in an Engineering** field (Electrical, Mechanical, Industrial or Materials Science).

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

**– At Infineon Hungary we primarily produce standard power modules –**

In Cegléd we assembly and test IGBT modules, bipolar semi-conductor thyristors and diode modules and discs. Here we have a Zero Defect mindset and we help the world work towards a greener future.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
