

Internship: Financial Data Analyst

Job description

Are you eager to take on new challenges and keen on gaining unique insights into financial controlling and strategy of a leading tech company? Furthermore, do you consider yourself as a hands-on person with a great team spirit and very good communication skills? We are offering an internship in the Financial Controlling team for Power Discretes product line of the Power & Sensor Systems division. Apply now!

The objective of this internship is to support the Finance team in translating financial and market data into comprehensive management recommendations. Furthermore, you will support the team on daily tasks and projects. Through this, you will gain unique financial controlling and business insight of a leading tech company. Do not miss this opportunity and apply now!

In your new role you will:

- Perform **financial** and **market analysis** under guidance
- Support the definition and creation of dashboards with financial summaries and business insights for management
- **Visualize financial data** with tools like e.g. Tableau to enable meaningful decision making
- Support a high quality and reliable financial forecast and long term planning with underlying **data analytics**

Further Information

Type of employment: Temporary / Full-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)
