

Staff Specialist Supply Chain Planner High Power

Job description

Do you enjoy working in an international environment and like to interact with different stakeholders internally and externally? Handling different topics and priorities at the same time is your daily business, and you love the variety of tasks. If this sounds exciting to you, then you should be part of our success story as a Staff Specialist in the Supply Chain & Product Management team!

In your new role you will:

- **Creation, modification and prioritization of sales and marketing plans**, taking into account existing orders for the next 6 months and in consultation with the Business Demand Planner
- **Implementation of allocation decisions** in the case of production bottlenecks on the various production lines, this includes coordinating with Customer Logistics (CLM), the Capacity Alignment Planner and Product Marketing
- **Involvement in solving the logistics aspects** within task forces for product and production problems
- **Participation in projects** related to supply chain processes & tools, and change management and be the **key user for supply chain processes**
- **Monitoring of delivery commitments of the global production locations** (front and backend) for the respectively assigned product range, this is performed independently and autonomously taking into account aspects such as available capacities, customer demand and inventory targets

Profile

You are best equipped for this task if you have:

- Bachelor Degree in Business Administration / Supply Chain / Electrical / Electronic Engineering, Computing and relevant fields with **at least 3 years** professional working experience in **Supply Chain management**
- Business focused with **strong planning, coordination, analytical skills**
- Excellent **communication skills**, very well organized and able to think outside the box
- Knowledge in **Tableau** would be an added advantage

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd (“Infineon”) can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. “Fully vaccinated” means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
