

Head of Technical Project Review (f/m/div)*

Job description

Within this job, you ensure that the interests of development and manufacturing are balanced regarding time to market, manufacturing stability and quality. You host a technical management board which reviews technology development projects before critical milestones. With your experience you are able to lead discussions and identify solutions for critical topics. Do you enjoy working in a world-wide team with the opportunity to shape improvements and drive changes? Do you have strong communication skills and like to collaborate with other teams and experts? If so, then apply now! We look forward to hearing from you!

In your new role you will:

- **Organize and lead technical milestone reviews for technology & transfer projects** for the site Villach and cross-site reviews involving Villach
 - Create a **trusted environment** so that issues and risks can be communicated openly and discussed constructively
 - Ensure that **production and development interests are balanced (time to market, production stability and quality)**
- **Lead global technology projects** involving wafer fabrication and assembly technology
- **Define and deploy** novel complexity management tools and methods

Profile

You communicate openly, clearly and coherently. You convey information in a comprehensive and targeted manner. You act authentically and respect the values of the company. In addition, you identify with the company's goals and interests and contribute to the company's good reputation. Furthermore, you respect different attitudes and points of view and quickly establish a trustful relation as well as constructive cooperation.

You are best equipped for this job if you have:

- Successfully completed a **university degree in physics, semiconductor technology, material science, chemistry** or related technical or scientific field
- More **than 8 years of professional and technical work experience** in the field of **wafer technology development**
- Gained **intercultural experience with USA and South East Asia countries**
- **Profound expertise** in **MS Office** and **virtual meeting tools**
