

## Internship: Test Technology and Innovation PM Support (f/m/div)\*

### Job description

Would you like to join a dynamic and motivated team to work on data automation and database queries at our Business Excellence Department? If you are passionate about the semiconductor industry, Digital Transformation and Data – don't miss this opportunity and apply now!

In your new role you will:

- Help with the **build-up and maintenance of automated Tableau Reports**, and associated data mining & data-base queries
- Support the build-up and maintenance of **user-oriented Intranet and i-shares**
- Contribute to the **tool setup for business process development (ARIS)**
- Optionally help with the **administration of business process development**

### Profile

You are best equipped for this job if you:

- Are studying **IT, Computer Science, Communications** or a related field with technical focus 2nd semester.
- Have an affinity for **data automation in international environment**, with multiple sites
- Possess some knowledge in **automated report creation** and the **user-friendly visualization of data**
- Are interested in technical matters around **semiconductors** and their **high-volume manufacturing**
- Ideally have a background with the design of **Tableau reports, i-shares, and webpages**
- Have good **English** skills as well as know **German at progressed level**

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript
- High school report

## Why Us

### **Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **Test Technology and Innovation department (TTI)** ensures Infineon's ability to test our innovative products on novel and state-of-the-art test equipment, at early stages and in high volume production. Thus, TTI is pivotal to ensure Infineon's product quality before shipping to customers. **TTI Platform Management** is responsible for the Test Equipment Lifecycle, the Test Location strategy, and reducing the costs of testing. We reach to all our international production locations, and have global departments where novel Test solutions are developed for the whole span of Infineon's product portfolio.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
