

Senior Manager RF Design (f/m/div)*

Job description

Do you like to work in a dynamic environment, to facilitate teamwork and to set direction while striving for a common goal? You are a manager, a leader and curious about technical solutions? As Senior Manager RF Design (f/m/div) you are able to bring all these aspects into reality. If you are looking for an open-minded, collaborative corporate and team culture, Infineon is the place to be.

In your new role you will:

- **Lead the RF Design team in Linz** developing LNA & RF-Switch products for mobile phones and Receive Antenna Front end Modules (RX-AFE) for wireless infrastructure base receiver stations.
- **Develop the team to achieve outstanding R&D productivity targets** with a customer-oriented mindset
- **Support and maintain required team's skillset** as well as **recruit and develop employees** (performance management, technical ladder development, training)
- **Create a high motivational and attractive working environment**
- **Take and honor project's resources** and deliveries commitments: Schedule, Budget and Quality
- **Review projects, foster lesson learning and continuous improvement**, implementation with specific focus on quality and productivity
- **Develop relationships with the local Universities** taking advantages from available state of the art know how and from an available pipeline of talented young graduates
- **Drive innovation in products development and methodologies**, contribute to IP and know-how creation

Profile

You are best equipped for this task if you have:

- **A degree in Computer Science, Mathematics, Electrical Engineering** or comparable
- **At least 8 years of working experience within RF** as well as **profound expertise in RF product design and applications**, ideally in the semiconductor industry
- **Knowledge of RF designs** in frequency range of 1 - 6 GHz is a big plus
- **Relevant experience in a leadership role** with strong skills in managing, developing a team to the next level of strategy execution
- **Self-motivated and result oriented**, team player with proactive mindset and good interpersonal skills

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

About Infineon in Linz

Semiconductors are essential to realize key trends like eMobility, automated driving and secure, connected cars. Infineon Automotive (ATV) is the #1 semiconductor partner in the fast-changing automotive world, based on our system knowledge coupled with our passion for innovation and quality. We are a key driver in the ever-advancing pace of digitalization in the automotive industry. At our location in Linz we are focusing on high-frequency integrated switching circuits for automotive applications using state-of-the-art Bipolar/RF-CMOS semiconductor technologies as well as on complex mixed signal ICs that are used in high frequency radar applications (77/79 GHz). Automotive (ATV) shapes the future of mobility with micro-electronics enabling clean, safe and smart cars.

Linz is the third-largest city of Austria located approximately 30 kilometers (19 miles) south of the Czech border. It represents a symbiosis of industry, culture and nature - surrounded by stunning landscapes. As UNESCO City of Media Arts, Linz is also one of the world's most future-orientated locations together with Lyon, Sapporo, Tel Aviv and Dakar. Austria's social and health care system is among the best in the world and for decades numerous international surveys have singled out the country as a particularly safe and wealthy country with a high quality of life.
