

## Senior Staff Engineer RF Design (f/m/div)\*

### Job description

You have a pioneering spirit, passion for the latest technologies and a high capability for abstraction? You have a strong team player mindset, enjoying collaborations with colleagues from different departments? You are eager to work on RF power design? Then don't miss out this chance: as Senior Staff Engineer RF Design at Infineon Austria, you will put your creativity into practice and develop products that make a significant contribution to a smarter and greener world.

In your new job you will:

- **Design RF power amplifier modules and circuits for 5G** wireless infrastructure applications
- **RF circuit design** in III-V semiconductor technologies
- **Design of Doherty PA**
- **Translate RF front ends system level specifications** into design requirements
- **Guide chip and module flow development**

With this position you will be entering our „technical ladder”: our career path for experts. You will be able to focus deeply on technology – while further pursuing your career. As you continually expand your expert knowledge, puzzle over matters and solve problems, you will position yourself as a thought leader – thus helping our products improve our world a bit more each day.

### Profile

You are a team player with an open mind for new ideas, tools and methods. You possess strong communication and interpersonal skills and know how to establish lasting relationships and networks. In your day-to-day work you act lean and fast, and strive for continuous improvement. You generate value with your ideas and solutions and demonstrate high quality standards for yourself and other people. You think analytically and result-oriented and have a structured and self-driven working style.

You are best equipped for this task if you have:

- **A university degree in Electrical Engineering or Physics** with knowledge in semiconductor physics
- **5+ years of relevant work experience** in RF power amplifier design, knowledge of Doherty PAs design is a plus
- **5+ years of experience in RF product development**

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

**– Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –**

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3900 colleagues from over 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Due to its particular geographic location and the outstanding natural beauty of the region, Villach and the whole province of Carinthia have for generations been popular holiday destinations for people from all over the world. Living in Austria also has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
