

## Senior Manager Project Management (f/m/div)\*

### Job description

Do you like to work in a dynamic environment, to facilitate teamwork and to set direction while striving for a common goal? You are a manager, a leader and curious about technical solutions? As Senior Manager Project Management (f/m/div) you are able to bring all these aspects into reality. If you are looking for an open-minded, collaborative corporate and team culture, Infineon is the place to be.

In your new role you will:

- **Lead a team of project managers** in the field of mixed signal IP, Sub-system and full-chip development
- **Be accountable for people development and people grow** as well as to further grow the team based on business situation
- **Be responsible of assignment of the right team members to suitable projects**, based on complexity and team member experience/competency
- **Be in charge of defining a balanced workload** within a growing team
- **Report to department and division head** on a regular base

### Profile

You are best equipped for this task if you have:

- More than **10 years of work experience** with **ideally 5 years of experience in project-management**
- Basic **technical background** in **electronics and/or semiconductor**
- **Fundamental understanding in project management** in the field of research & development
- **Excellent leadership skills** as well as **outstanding communication skills**
- **Agile mindset, stress resistant** and **out-of-the box thinking capability**
- **Fluent English skills** with German as a plus

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group H-I (<https://www.feei.at/wp-content/uploads/2021/04/minimum-salaries-white-collar-workers-2021.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

## Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The central R&D organization „**Design Enabling and Services**“ (DES) provides the design environment to the different Infineon product development teams. With state-of-the-art design methods, building blocks and a wide range of product development services DES supports Infineon's advanced IC development from early high level system models to verified products ready for manufacturing.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with colleagues from more than 60 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Its unique landscape combines mountains and valleys, lakes and rivers, city and countryside. In addition to the favorable geographic location, living in Austria also has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life.
