

## Principal System Application Engineer – Wearables

### Job description

Join an exciting team driving IoT, Compute & Wireless success in Wearables. You will develop a deep understanding of architectures and use cases in selected Health & Lifestyle applications, and derive technical requirements and analysis that shape Infineon's products and solutions. This is a Technical Ladder position where you'll have the opportunity to share thought leadership, develop innovative ideas and translate technical knowledge into business value.

#### In your new role you will:

- Develop a **deep understanding of system architectures, use cases, performance requirements** and **customer needs** in Wearables and other Health & Lifestyle applications
- Derive **technical requirements** for Infineon's products and solutions for these applications, collaborating with key stakeholders including customers, marketing, sales and FAEs
- Provide technical leadership toward **resolution of complex problems** and decision making, directly influencing our success in these applications
- Collaborate with Marketing teams at a global level, creating **technical content** supporting **strategic marketing** and **Go-2-Market** activities
- Maintain a worldwide understanding of the **technical landscape** for your applications, including industry trends and standards
- Significantly contributes to **Infineon's offering definition** and **roadmap** (products, software, solutions, ecosystem partners, services)
- Deeply collaborate with product marketing teams on pricing, **technical requirements** for new products, and **new product introductions**

### Profile

#### You are best equipped for this task if you have:

- 10+ years' experience in **semiconductors** (or relevant **IoT** industry) working with **microcontrollers** and **wireless** connectivity that includes roles in **Engineering**
- **System architecture knowledge** of power-constrained **embedded systems**
- Successful track record **collaborating with Product Management**, to influence product definition at the technical requirement level
- Experience in preparing and delivering **technical presentations** and **building technical relationships** with key customers
- Ability to **articulate complex technical problems and solutions** in a simple way, for a wide variety of audiences

### At a glance

Location: **San Jose, CA (United States)**  
Job ID: **349097**  
Start date: **as soon as possible**  
Entry level: **5+ years**

- **Strategic** thinking and attention to details
- Strong **organization** and **time-management** skills

## The Connected Secure Systems (CSS)

segment offers comprehensive systems for a secure, networked world with a portfolio built around reliable, trendsetting microcontrollers as well as wireless connectivity and security solutions. Over the past decades, CSS has developed microcontroller, Wi-Fi, Bluetooth and combined connectivity solutions (known as connectivity combos) and hardware-based security technologies. The products are used in a broad range of applications: from consumer electronics, IoT and home appliances to IT equipment, cloud security and networked cars all the way to credit and debit cards, electronic passports and IDs. With its leading technologies in the areas of computing, connectivity and security, CSS makes a decisive contribution to protecting today's and tomorrow's networked systems.

## Benefits

- **San Jose, CA:** Medical, Dental & Vision Plans; Flexible Reimbursement Accounts (FSAs); Industry leading 401k Employer Contribution/Match; Company Performance Bonus; Holiday Pay & Paid Time Off (PTO); Flexible Working Conditions, Part-time Options; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Wide range of Training Offers & Career Development Planning; Coaching, Mentoring, Networking Possibilities; International assignments; Basic Life & Dependent Life Insurance; Paid Sick Leave, Accidental Death & Disability Insurance (AD&D) ; Short-term & Long-term Disability ; Employee Assistance Program (EAP) ; Health Promotion Programs ; Reduced Price for Public Transportation

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

*Cypress Semiconductor Corporation is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.*

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall

be at Infineon's sole discretion.

**IMPORTANT NOTICE:**

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
