

Senior Staff Specialist Product Owner Academy Webpage (f/m/div)*

Job description

As a Product Owner Academy Webpage, you will be in charge of implementing a user-friendly learning page on [infineon.com](https://www.infineon.com) for learnings in different formats. In this role, you will be part of a dynamic and international team that is at the very forefront of agile work at Infineon.

In your new role you will:

- Act as **central product owner** for **future Academy Web** on [infineon.com](https://www.infineon.com) in close collaboration with IT, content and tools owner
- Be responsible for **stakeholder management** in order to understand business goals and market opportunities
- **Interact with users** to understand customer needs and convert them into possible solutions
- **Lead ideation, prototyping, customer validation**
- **Manage, refine and prioritize** Academy Web product backlog
- Be responsible for **launching Academy Web**
- **Measure performance** and **ensure success** of product

Profile

In this role communication is key. With your diplomatic finesse and inspiring attitude, you can not only win over colleagues, but also customers and stakeholders. Furthermore, you anticipate future needs of web users and actively engage with them on these needs. Furthermore, you actively look for the ideal solution and engage in professional debates with the relevant people, instead of accepting rash compromises.

You are best equipped for this task if you have:

- A degree in **Business Studies, Computer Science, Educational or Social Sciences**
- At least 5+ years of **professional experience as web manager or product owner web**
- A proven track record of **successfully developing and implementing web product**
- **Experience with large scale organizations** with multiple counterparts like divisions, central functions and IT; as well as **agile methodology knowledge**
- A **strong data-driven approach** to problem-solving
- **Knowledge in the areas of learning, education or personnel development** as well as **programming knowledge** / HTML & JS skills or database know-how are a plus
