

## Scrum Master – Agile Coach (f/m/div)\*

### Job description

Do you want to coach the Development Team and the surrounding organization? And do you want to help the organization to reflect on itself and move towards a vision to improve perfect organization? Then take your chance and act as "Servant Leader"! As a Scrum Master – Agile Coach you are responsible for ensuring the team to collaborate and live agile values and principles. In this role, you will be part of a dynamic and international team that is at the very forefront of agile work at Infineon.

In your new role you will:

- Ensure that the team collaborates and lives **agile values and principles**
- Follow **lean processes and practices** as well as **guide new team members to onboard**
- Be primarily responsible to serve the team **turning the requirements into the working product** (digital platforms, web)
- Handle **critical communication topics** and **solve problems on demand** while integrating as a team member in a **cross-functional matrix organization**
- Achieve **project goals and KPI's** with all teams and share **success stories**
- Facilitate project resources and limitations by **managing risk and issue mitigations**
- Supports the Scrum team to **identify its stakeholders (stakeholder analysis)** and collaborate with the **business and other stakeholders**
- Communicate and work closely with all **product owners around the globe** in order to ensure transparent messaging

### Profile

In this role communication is key. With your diplomatic finesse and inspiring attitude, you can not only win over colleagues, but also customers and stakeholders. Furthermore, you anticipate future needs of web users and actively engage with them on these needs. Furthermore, you actively look for the ideal solution and engage in professional debates with the relevant people, instead of accepting rash compromises.

You are best equipped for this task if you have:

- A degree in **communications, marketing, business, electronics engineering** or other relevant fields
- At least **5 years of relevant experience** in managing scrum, less or SAFe teams in agile environments
- A **first level scrum master certification** (CSM, PSM, PMI-ACP, PMI-PMP)
