

Principal Field Applications Engineer

Job description

As a Principal Field Applications Engineer, you will be responsible for providing premium technical support leading to design wins for Infineon Enterprise products (digital controllers, power stages, point of load regulators etc.); Does this sound exciting? if so, please apply today!

In your new role you will:

- Ongoing support for existing products and customer programs as needed; this includes **schematic/layout reviews, board bring ups, tuning/optimization, full validation, and generating validation reports.**
- Work with product applications engineers to provide accurate, timely, and quality responses to customer technical support requests.
- Use knowledge of targeted applications and systems, recommend application solutions, design ideas and products to the customer design team.
- **Work in the lab with various test equipment to verify customer issues, debug, validate solutions, and design ideas.**
- Be knowledgeable of competitor solutions and how Infineon products and solutions compare and contrast to them.
- **Collaborate with sales, FAE's and marketing teams to develop value propositions to promote relevant application strategies as appropriate to support customer design-in.**
- Proficient knowledge of system solution design decisions and trade-offs (including magnetics, capacitors, and control loop) and makes recommendations on product selection for the desired cost/benefit ratio.

Profile

You are best equipped for this task if you have:

- 3-5 years of relevant experience in power electronics with **emphasis on analog /digital LV DC-DC; Multiphase Vcore and Memory a plus.**
- Hands-on experience in **DC-DC power supply design.**
- Electronic system design including conception, **block diagrams, schematic capture, PCB layout, build and debugging.**
- Experience with commercial aviation, medical, industrial, and consumer products is a plus.
- Experience using development tools including **schematic capture, PCB layout, electrical stimulation, and thermal simulation.**

At a glance

Location: **Milpitas, CA (United States)**
Job ID: **349786**
Start date: **as soon as possible**
Entry level: **5+ years**
Type: **Full time**
Contract: **Permanent**

Benefits

- **Milpitas, CA:** Medical, Dental & Vision Plans; Flexible Reimbursement Accounts (FSAs); Industry leading 401k Employer Contribution/Match; Company Performance Bonus; Holiday Pay & Paid Time Off (PTO); Flexible working conditions, Part-time Options; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Wide range of Training Offers & Career Development Planning; Coaching, Mentoring, Networking Possibilities; International assignments; Basic Life & Dependent Life Insurance; Paid Sick Leave, Accidental Death & Disability Insurance (AD&D); Short-term & Long-term Disability; Employee Assistance Program (EAP); Health Promotion Programs; Reduced Price for Public Transportation

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

Infineon Technologies Americas Corp. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
