

Product Marketing Manager Power MOSFETs (f/m /div)*

Job description

We believe that Power MOSFETs are, and will remain, at the heart of three global megatrends in modern society: energy efficiency, mobility and automation. At Infineon, we have the size, the competence and the faith in innovation to make tomorrow's Power MOSFETs a reality. Become part of our success story! As Product Marketing Manager you will take over business responsibility for a product group of Power MOSFETs in the range of 100V-400V for which you will define and implement the global strategy. If you enjoy working in a dynamic environment with international colleagues from different departments and you are an entrepreneurial thinker, creative problem solver and like to drive things forward – this is your chance!

In your new job you will:

- Drive, define and ensure execution of the **future segment product roadmap**
- Act as **project owner for R&D projects** and orchestrate marketing efforts and deliverables (business case development, requirements gathering) during the development milestone process
- Intensively **collaborate with Application Engineering, R&D, Quality, Operations**, among others
- Manage and develop a **business strategy for the product portfolio** to ensure the best positioning in the marketplace, drive revenue growth and increase profitability
- **Influence profit/loss** of the product portfolio
- **Analyze the market** to gain an extensive understanding of the business environment and drive competitor analyses within application spaces such as power conversion, Motor control/ inverters and Digital audio
- Engage and build **strategic relationships with key and channel customers**
- Intensively **collaborate with worldwide sales and R&D departments** in order to maintain our leading market position
- Deliver **product launches and training** to a wide internal and external audience
- **Represent the Product Line** to internal and external partners worldwide

Profile

You bring in expertise of the power semiconductors market and including relevant technical understanding. As business savvy character, you recognize profitable and strategic business opportunities and possess strong decision-making and managerial skills, even in uncertain situations. Moreover, you enjoy working in interdisciplinary and international teams with multicultural backgrounds. Simultaneously you are a

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Power & Sensor Systems (PSS) drives leading-edge power management, sensing, and data transfer capabilities –

Infineon **PSS** semiconductors are enabling intelligent power management, smart sensitivity, and fast, reliable data processing in an increasingly digitalized world. Our state-of-the-art power and connectivity devices make chargers, servers, mainboards, power tools, and lighting systems smarter, smaller, lighter, and more energy-efficient. In addition, our trusted sensors give things an intuitive sensing capability to make them contextually aware, and our RF chips support fast and reliable data communications.
