

Senior Staff Specialist Change Management (f/m /div)*

Job description

Change processes make your heart beat faster? Are you open-minded, outgoing and able to build sustainable relationships? Our Infineon Automotive Division has got the highest of all quality standards. As Change Management Engineer you will actively shape the automotive business, related to all Automotive Products. Become part of an agile and international team and apply for this exciting position at our headquarters in Munich.

In your new role you will:

- **Be responsible for the change management process** in the Automotive Division
- **Be the contact person for Business Units** according to deviation management
- **Decide about necessity of customer information** according to JEDEC 46 or ZVEI
- **Harmonize PCNs between different Business Lines and Division**; entry point for our production sites (Frontend and Backend)
- **Be responsible for the first contact in case of customer questions** and ensure a good information flow between customer and internal colleagues – also by organizing, moderating and joining internal and customer meetings.
- **Ensure change management process** adherence
- **Define** Automotive common **methodology**
- **Ensure that processes/ tools** incl. change assessment matrix do **fulfil** our Automotive business **requirements**
- **Train colleagues** from different sites, regions and Business Units.

Profile

You keep the customer informed appropriately, transparently, and regularly while working conscientiously on making things better, faster, and more efficient. You communicate openly, clearly, and coherently and share information comprehensively and effectively.

You are best equipped for this task if you have:

- A **degree in electrical Engineering**, physics or similar.
- At least **5 years of experience** in development and / or marketing or quality management in the semiconductor industry.

Benefits

- **Munich:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; On-site creche and kindergarden with 120 spots, open until 6pm; Holiday child care; On-site social counselling and works doctor; Health promotion programs; On-site gym, jogging paths, beachvolleyball, tennis & soccer court; On-site canteen; Private insurance offers; Wage payment in case of sick leave; Corporate pension benefits; Flexible transition into retirement ; Performance bonus; Reduced price for public transport and very own S-Bahn station; Access for wheelchairs

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

–

Automotive (ATV) shapes the future of mobility with micro-electronics enabling clean, safe and smart cars –

Semiconductors are essential to realize key trends like eMobility, automated driving and secure, connected cars. Infineon ATV is the #1 semiconductor partner in the fast-changing automotive world, based on our system knowledge coupled with our passion for innovation and quality. We are a key driver in the ever-advancing pace of digitalization in the automotive industry.

Infineon's **Quality Management** department acts proactively to satisfy the needs of our customers to increase their success and to ensure 'best in class' product quality. Internally the department develops a living quality culture at all levels within the different divisions and at our partners.
