

Principal Engineer FAE

Job description

Infiniteon is seeking a Principal FAE to provide premium specialized technical support to assigned customer base, leading to design wins.

In your new role you will:

- Establish and maintain a strong technical understanding of Infiniteon's broad product portfolio
- Support Sales in educating distribution partners and key customers on the product portfolio, especially oriented to system solutions.
- Provide technical leadership to the distribution FAE's and Field Sales Managers.
- Proactively engage with key customers to understand their applications(s) and define key architectural design problems to solve.
- Develop block diagrams of the customer projects and drive a majority of the technical discussions internally and externally.
- Work with Business Units as next level of support and/or roadmap discussions are needed.
- Collaborate with Sales to communicate solutions and execute account strategies to drive proposals to business wins.

Profile

You are best equipped for this task if you have:

- Bachelor's degree in Electrical Engineering
- 7+ years of experience in semiconductors and/or electrical engineering
- Hands-on experience in MCU's, MOSFET's, IGBT's, SiC, PMIC, gate drivers, sensors, memory, connectivity and security products
- Application Engineering experience in a broad spectrum of markets, especially automotive
- Strong technical and commercial aptitude, with a focus on developing customer relationships and problem solving
- Live in Southeast Michigan and are able to support customers and distributors throughout the Great Lakes region

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

Infineon Technologies Americas Corp. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
