

Manager Production Management (f/m/div)*

Job description

Do you enjoy working in an international environment and like to interact with different stakeholders internally and externally? Do you want to gain the overview from end-to-end instead of being the expert for just one step? As a Manager Production Management you will be responsible for a product family and project support for new product developments with ensuring manufacturability, high yield and quality during the whole product life cycle. Furthermore, you ensure a reliable ramp up, support of the products during production, exploit continuously the cost optimization potentials, contribute to the Product Line Manufacturing Strategy, & lead cross-functional teams over the global frontend and backend sites to improve quality, capacity and cost position for part of the product portfolio.

In your new role you will:

- **Drive the manufacturing improvements** of quality, cost and capacity for power semiconductors used in ISD applications (IGBT, Diodes, SiC, Gate Driver) **as a Product Owner**
- Contribute to the **Product Line Manufacturing Strategy** in frontend and backend
- **Lead cross-functional ramp-up teams** for innovative chip technologies and packages to improve T2M (Time to Market)
- **Solve challenging problems with a systematic approach** and with cross functional teams
- **Organize and assure product and technology transfers** in the Infineon production network
- **Be Responsible for planning, coordination and execution of assigned ramp up projects** handled within Product Lines and act **as ramp up project leader**
- **Drive cost and TCM/TOM improvements**, identify idle costs in production and optimize value chain
- **Define and drive Quality improvement programs** together with QM department based on customer failure returns
- **Organize product and technology transfers** in the Infineon production network

Profile

You are eager to extend your knowledge and strive to understand both details and the big picture. You are open-minded, like to explore new paths and derive innovative solutions. Furthermore, you bring in good communication skills, foster an open communication climate and know how to establish lasting relationships in international and cross-functional project teams.

You are best equipped for this task if you have:

At a glance

Location: **Munich (Germany)**

Sebastian Schmaus
Talent Attraction Manager

- **A degree in Electrical Engineering, Physics, Material Science** or a related technical field
- At least **5 years of professional experience** in the semiconductor industry indifferent departments, such as R&D, Operations, Product- and Test Engineering or similar
- **Solid project management expertise** and **proven problem-solving skills**
- **Experience with semiconductor manufacturing** e.g. from process engineering and production control as well as ideally experience in assembly and test
- **A deep understanding of the semiconductor technologies and supply chain**
- Excellent communication and negotiation skills as well as international exposure
- **Entrepreneurial spirit to drive improvement of ISD product performance, quality, and profitability to maximize the Total Operation Margin (TOM) of ISD CD Product Line**
- **Excellent German and English** communication and presentation skills

Benefits

- **Munich:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; On-site creche and kindergarden with 120 spots, open until 6pm; Holiday child care; On-site social counselling and works doctor; Health promotion programs; On-site gym, jogging paths, beachvolleyball, tennis & soccer court; On-site canteen; Private insurance offers; Wage payment in case of sick leave; Corporate pension benefits; Flexible transition into retirement ; Performance bonus; Reduced price for public transport and very own S-Bahn station; Access for wheelchairs

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Industrial Power Control (IPC) empowers a world of unlimited green energy –

Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain.

As the global leader in power semiconductors, Infineon **IPC** delivers pioneering products, solutions and services for smart and efficient energy generation, transmission, storage, and use. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever it is needed.
