

Staff Product Quality Management Engineer (f/m /div)*

Job description

There can be no compromising when it comes to quality. At Infineon we want the customer to come back and not the product. We are now looking for a Staff Product Quality Management Engineer in Pavia. If you are a talented engineer with a passion for quality topics, come and be part of multidisciplinary international project teams to ensure our products quality.

As a Product Quality Management Engineer, you will be responsible to ensure that the quality targets are met for the respective product and technology development projects.

In your new role you will:

- Define a **qualification strategy** according to product segment quality targets, application requirements and customer requests;
- Manage the overall **planning** (timelines, resources, qualification samples) and monitor the **qualification tests**;
- Assess **qualification results** for successful product release, including documentation;
- Safeguard the **delivery quality** and drive **continuous improvement** activities and programs;
- Carry out **risk assessments** and overall Quality Management **support activities** (customer audits, request, problem solving);
- Contribute to an **effective process flow for complaint management** and support with difficult complaints, customer requests or crisis situations;
- Support the monitoring of quality criteria and the adherence to **quality assurance risk management procedures**;
- Create **quality and risk reporting** and adequate **quality measurement criteria**, establishing and harmonizing quality assurance objectives, policies and operating procedures.

Profile

You remain aware of the big picture even in complex situations, you work conscientiously on making things better, faster and more efficient. You are able to collaborate beyond borders while appreciating the contribution of others. You are passionate about quality and demonstrate active knowledge transfer and best practice sharing.

You are best equipped for this role if you have:

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Industrial Power Control (IPC) empowers a world of unlimited green energy –

Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain.

As the global leader in power semiconductors, Infineon **IPC** delivers pioneering products, solutions and services for smart and efficient energy generation, transmission, storage, and use. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever it is needed.
