

Director Chip Integration & Validation (f/m/div)*

Job description

You enjoy leading a team in an international, cross-functional setting and are eager to further develop your leadership skills in an innovative technology environment? As Director Chip Integration & Validation you will manage the Chip Integration & Validation activities of Infineon's European Design Center for PSS DCDC in Villach which are divided into three areas: Analog-/ Mixed-Signal & Digital Verification, Physical Design (full-custom layout) and Component Verification. As entrepreneurial thinker and creative problem solver, you like to drive things forward and have an agile mindset to cope with a dynamic, high speed environment? If the answer is yes, you are the one we are looking for.

In your new job you will:

- **Manage the Chip Integration & Validation activities** of Infineon's European IC Design Center for PSS DCDC consisting of 3 teams incl. their team leaders and overall ~40 employees, all teams are directly involved into chip product development
- **Develop the teams** to the needs of the business and the individuals according to their needs
- **Support the hiring of talents** and **dedicated experts** to extend the teams as required
- **Be responsible for the quality of project deliverables** and the resource planning
- **Drive methodology** and **efficiency improvements**
- **Establish** and **maintain external R&D partnerships** with universities and/or service providers
- **Be representing your organization** towards stakeholders, management and peers

Profile

With your way of being, you inspire and encourage your international team to succeed. You communicate transparently and respect different attitudes and points of view and use the creative potential they offer. You connect people, cooperate empathically with your team members and foster their individual talents. You have an entrepreneurial and continuous improvement mindset, considering cost-benefit ratios at all times. Moreover, you keep a cool head even if there are multiple different projects on your desk.

You are best equipped for this task if you have:

- **Achieved a technical university degree** in Electrical Engineering, Microelectronics, Physics or comparable, MBA as a plus

Melanie Happerger, MSC
Talent Attraction Manager

- **Demonstrated strong leadership capabilities to lead and work with global cross functional teams**, taking full ownership and steering all parties towards common strategic and business goals
- **Understanding of IC development/design flow, methodology and processes**
- **The ability to attract, grow and retain top technical talents**
- **The capability to influence without authority** and can navigate through the complex structure of a large organization
- **The ability of being an excellent team player** and can effectively achieve business targets by leveraging team work
- **Fluent English skills** – German or the willingness to learn it would be an additional plus

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group J (<https://www.feei.at/wp-content/uploads/2021/04/minimum-salaries-white-collar-workers-2021.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

– **Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities** –

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3900 colleagues from over 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is

among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
