

Senior Manager Procurement Controlling (f/m/div)*

Job description

You are looking for a job that offers a variety of tasks, many different interfaces and project-related responsibility? You love to increase productivity and generate value with your ideas and solutions? You are good at elaborating and analyze numbers? You enjoy collecting them to let the business base decisions on figures? As a Senior Manager Procurement Controlling you will work independently as part of a global team, keep track of financials development and provide the Operations management with financial data required for executive decision-making. If this sounds interesting to you, then make sure to apply now!

In your new role you will:

- **Foster Procurement embedded Finance Function with financial expertise and controlling**
- **Integral part of the Procurement Center of Competence and sparring partner for the respective head of department and all relevant stakeholders for all global and cross-functional financial requests**
- **Be responsible in different negotiation teams for the preparation of business cases with risk assessment incl. sensitivity analysis**
- **Develop balanced forecasts on a regular base and identify deviations in achievements**
- **Contribute and support the Center of Competence strategy with respective financial assessment of long-term forecasts**
- **Contribute to the Risk Management by evaluation of potential financial exposure**

Profile

You take on new challenges without knowing the right path to an eventual solution in advance, and remain aware of the big picture even in complex situations and take decisions despite uncertain circumstances. You think and act in a cooperative way and clarify areas of responsibility, coordinate your work with colleagues, and regularly share your insights with them. You act initiatively and overcome new situations with creative solutions and find useful ways to reach set targets.

You are best equipped for this task if you have:

- **A University degree in Business Administration with a focus on finance** or have gained comparable experience
- **At least 6 years of relevant professional experience in the areas of finance and controlling**
