

Windows Server Platforms Specialist (f/m/div)*

Job description

Innovation plays a key role in business success and development. Are you passionate about creating technological solutions to achieve efficient results? Our team in Cegléd is on the lookout for their next Windows Server Platforms Specialist. Are you interested in taking your career to the next level by embracing this challenge? Here you will have the chance to leave your footprint, being part of the innovation process and the quality gate for future semiconductor technologies.

As a Windows Server Platforms Specialist, you will be responsible for Windows servers (WIN) operational support for IT datacenter department.

In your new role you will:

- Provide **day to day technical support** and handle **administration tasks for IT System** (Windows Server) in local and regional global sites.
- **Install and configure new systems** along with backup solutions and/or high availability options.
- Perform **day to day operation tasks**, such as resolving incident tickets and change requests, providing 2nd tier responses, ensuring the analysis and resolution planning for dated issues and seeking appropriate solutions for issues.
- Perform **preventive maintenance** and **performance tuning on systems**.
- Initiate and follow-up on **critical vendor technical support requirements**.
- **Document system processes and procedures**.
- **Maintain, upgrade and enhance current IT Systems** in local and regional sites.
- **Liaise with application groups on various projects** and other system support requirements.
- **Coordinate datacenter facility maintenance activities, upgrades, improvement areas, incidents** according to datacenter compliance.

Profile

Your hands-on approach towards your job allied to your good initiative and outspoken mindset give you the right set of tools to walk the talk and put decisions to work. As a team player, you establish successful cooperation with your counterparts, and your effective communication and interpersonal skills allow you to pass on meaningful and reliable information. You have a precise working style, always open to learn new things. Your proactive personality drives you into pushing ideas to their full implementation by supporting your team to excellence in a global setup.

You are best equipped for this task if you have:
