

## Business Analyst for Recruiting (f/m/div)\*

### Job description

You are looking for the next challenge within IT? Your responsibility covers the seamless operation and continuous service improvement of our global tools. This position offers the opportunity to initiate and support the optimization of our HR system landscape. Have experience capturing and managing IT applications and projects in an international company. HR is your field of expertise. This might be your chance to grow inside a global IT team in Munich.

In your new role you will:

- **Support Recruiting Applications** within the “IT HR People Solutions” Team
- Be part of our journey to **innovate and shape our recruiting processes**
- Define and analyze requirements in cooperation with the business owner counterparts (HR)
- Analyze and evaluate requests and **provide technical solutions and consulting to HR**
- **Ensure operational excellence and monitoring of service delivery** and quality of external service partners
- Plan and execute **innovation projects** in your area of responsibility or within the “IT HR People Solutions” team

### Profile

Your structured way of working, excellent communication skills and open personality enables you to establish successful cooperation within a global team. You cooperate across boundaries, appreciate the contribution of others and make use of the resulting creating potential.

You are best equipped for this task if you have:

- A degree in **Information Technology, Business Informatics, Computer Science** or similar field of studies
- At least **1-3 years of relevant work experience** in an **IT department or IT consulting** company
- Already worked in a similar position **managing and supporting IT tools**
- Ideally, **experience in HR topics** and challenges
- **Open-minded, innovative, motivated** and willing to take responsibility and grow with different topics
- **Fluent in German & English**

# Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1.200 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
